LLM call latency 6
Span duration 4
Time to first token 4
Time per output token/generation time 2
Errors and volume 3
Error count/rate 8
Trace/span count 4
LLM call count 5
documented as built-in
not documented as built-in (other status or none)
† documented as built-in by one tool only
Tools: number of the 13 tools that document the metric as built-in
The number after a category is its number of metrics
